Profile

Motivated and research-oriented Computer Science and Engineering student at Daffodil International University with strong expertise in blockchain technology, AI research, and software development. Experienced crypto content creator and trading influencer with hands-on experience in business development within the blockchain industry. Skilled in machine learning projects, web technologies, research writing, and community building. Passionate about innovation, problem-solving, and contributing to impactful technology-driven solutions.

Education

Daffodil International University (DIU) — Dhaka, Bangladesh **2024 – 2027**
B.Sc. in Computer Science and Engineering
Semester: **8th Semester (Running)**
CGPA: **3.60/4.00 Running**

Armed Police Battalion Public School and College, Bogura — Bogura, Bangladesh **2021**
Higher Secondary Certificate (HSC), Science
GPA: **5.00/5.00**, Board Scholarship.

Punat High School, Kalai — Joypurhat, Bangladesh **2019**
Secondary School Certificate (SSC), Science
GPA: **5.00/5.00**, Board Scholarship.

Skills

Technical: Python, Java, JavaScript, C, HTML, CSS, Tailwind CSS, MySQL, blockchain fundamentals and software development concepts

Tools: VS Code, Figma, Colab, CodeBlocks, Git, GitHub, MySQL

Soft Skills: Problem-Solving, Team Leadership, Communication, Time Management, Public speaking, Critical Thinking, Cross-Functional Collaboration

Experience

Business Development Manager (Remote), Blockchain Companies **2023 – 2024**

- Worked remotely in the blockchain and crypto industry, focusing on business growth, partnership development, and user acquisition strategies.
- Collaborated with cross-functional teams to support project expansion, marketing execution, and community engagement in Web3 ecosystems.

- Developed and contributed to blockchain-based projects including token creation, deployment, and exchange listings on platforms such as LATOKEN and MEXC.
- Participated in end-to-end project development from smart contract logic to ecosystem growth and community building.

Projects

Revamped Music (MP3) — Blockchain-Based Music Platform Solidity, Web3, TRC20, Smart Contracts

- Developed a decentralized music platform enabling digital content ownership and streaming using blockchain technology.
- Implemented token-based ecosystem integrated with TRC20 standard and deployed on blockchain networks with exchange listings.

Twisted Network (TWST) — Crypto Token Ecosystem Solidity, Blockchain, Token Development

- Built and contributed to a blockchain token project focused on utility and ecosystem expansion in Web3.
- Supported deployment, testing, and listing processes on exchanges such as LATOKEN and MEXC.

Agro Farmer Management System Java, MySQL, OOP

- Designed and developed a farmer management system as an academic software engineering project.
- Implemented database-driven functionality for managing agricultural operations and user records.

Research & Publications

ML Research (IEEE QPAIN 2026 — Accepted)

- DeepStrokeGuard: Explainable and Deployable Deep Learning for Brain Stroke Detection with Class Imbalance Handling
- Code-Mixed Bangla-English Sentiment and Emotion Analysis in YouTube News Comments: A Tailored Machine Learning Approach

Achievements

- CryptoPedia Bangla YouTube Channel — Built and grew a crypto education platform with 26K+ subscribers focusing on trading, blockchain awareness, and market analysis
- Blockchain Project Development — Contributed to token-based blockchain projects with listings on exchanges such as LATOKEN and MEXC, involving deployment, ecosystem development, and community growth
- DIU Growing Star — Top **5%** among all students (Spring 2024)
- DIU Take-off Programming Contest — Top **5%** among all students (Spring 2024)
- DIU Unlock the Algorithm Contest — Top **10%** among all students (Fall 2025)
- Board Scholarship in JSC, SSC, and HSC.
